MEDIA INFORMATION 2016

Hydraulics & Pneumatics

THE JOURNAL OF FLUID POWER AND SYSTEMS

Hydraulics & Pneumatics

Hydraulics & Pneumatics is the UK's only niche magazine for fluid power & systems buyers and users within industrial sectors including offshore oil & gas, aerospace, agriculture and construction.

The journal offers the most comprehensive updates on current developments concerning fluid power/motion control through the latest news, technical articles, topical opinion, in-depth interviews, new products and information end user-focused application stories.

All aspects of hydraulic and pneumatic power, actuation and automation are addressed, along with compressed air generation and supply – plus relevant instrumentation, systems control and monitoring.

The journal's breadth of hydraulics scope covers everything from pumps, motors and accumulators to hose fittings and fluid analysis kits. With regard to pneumatics, everything from actuators and air motors to seals and bowl islands and a range of related accessories are regularly surveyed. And compressed air receives similarly comprehensive treatment; industrial and portable air compressors, their treatment, hose-related products and services, and much more are put under the spotlight.

The publication also provides useful help and guidance on issues such as maintenance, repair & refurbishment, condition monitoring, energy efficiency, training and health & safety. In addition, the journal publishes the Annual Hydraulics & Pneumatics Buyers' Guide; an unrivalled sourcing & procurement aid for fluid power systems, components and services.

Hydraulics & Pneumatics magazine has strong links with leading trade associations the British Fluid Power Association (BFPA) and the British Compressed Air Society (BCAS). Moreover, Hydraulics & Pneumatics magazine owner DFA Media is also the official publisher of the BFPA and BCAS Yearbooks and Members' Directories, copies of which are distributed once a year together with Hydraulics & Pneumatics magazine.

Ed Holden Editor

Editorial Programme

2016 ISSUES	HYDRAULICS	PNEUMATICS	INTERGRATED SYSTEMS	COMPRESSED AIR AND GENERATORS	APPLICATIONS	KNOWLEDGE BASE	SPECIAL REPORTS
JANUARY/ FEBRUARY	Hose & Fittings, Power packs, Motors, Pumps	Every issue: The latest pneumatic products: Accessories, Actuators, Air lines, Air motors, FRLs, Seals, Vacuum, Valves/valve islands, Electro-pneumatic control.	Hydraulic/ Training Systems	Every issue: The latest compressed air products: Air treatment, Compressors, Hose & fittings.	Aerospace/ Defence	Offshore/ Onshore	Boardroom Report FPS & Air-Tech Preview
MARCH	Cylinders, Seals, Filters, Valves		Fluid Power Systems and Energy Efficiency		Medical/Food	Construction/ Off-Highway	BCAS Members Yearbook 2016/17 FPS & Air-Tech Show Guide
APRIL	Fluid Analysis Kits, Hose Fittings/Reels Swaging		Pneumatic/ Training Systems		Automation for Fluid Power	Skills Training	FPS & Air-Tech Show Review Railway
MAY/JUNE	Valves, Pumps & P/packs, Heat Exchangers		Electro-Hydraulic Systems		Training	Agriculture	2016/17 BFPA Yearbook & Members Directory
JULY/AUGUST	Hose & Fittings/Reels, Cylinders, Manifolds		Fluid Power Systems and Noise & Vibration Control		Automotive/ Marine	Maintenance, Repair & Refurbishment	Sector Report Offshore
H&P ANNUAL BUYERS GUIDE EDITION							
SEPTEMBER	Accumulators, Seals, Pumps & P/packs, Motors	Every issue: The latest pneumatic products: Accessories, Actuators, Air lines, Air motors, FRLs, Seals, Vacuum, Valves/valve islands, Electro-pneumatic control.	Electro-Pneumatic Systems	Every issue: The latest compressed air products: Air treatment, Compressors, Hose & fittings.	Agriculture	Automation for Fluid Power	Distributors Focus
OCTOBER	Hose Fittings/ Reels, Swaging, Valves		System Modelling & Simulation		Public Utilities & Infrastructure	Energy Efficiency & Safety	What OEM's want
NOVEMBER/ DECEMBER	Heat Exchangers, Filters, Fluid Analysis Kits		Hydraulic Systems		Energy and Natural Resources	Agriculture	LAMMA Preview Southern Man Preview

Appointments

Are you seeking a Professional within the Fluid Power Industry?

Hydraulics & Pneumatics offers a great platform to source experienced professionals within the Fluid Power Industry.

H&P Appointments offers you:

Over 33,000 Fluid Power Professionals – Consultants, Higher Education, Design Engineers, Sales, R&D, Marketing Management

Most cost effective way to recruit

Every appointment advert booked direct and within H&P Magazine is placed on our website Free Of Charge for 28 days from publication

Established Appointment section for the UKs fluid power industry

MATERIAL REQUIREMENTS

Printed Web Offset.
 Advertising copy can be supplied as QuarkXpress or InDesign files (including all support files and fonts), high-resolution, press-optimized pdf, eps, tiff or jpg files. All graphics should be supplied at 300dpi at size to be used.
 All colours should be CMYK or grayscale for mono.
 Please also supply a colour proof to the Production Manager as we cannot be held responsible for any colour variations otherwise.

Copy Deadlines

ADVERTISING COPY DEADLINES

All advertising copy needs to be supplied in the correct format by the end of the third week of the month preceding the issue date. For example for the September issue all ad copy needs to be supplied in the correct format by 12th September.

EDITORIAL SUBMISSION INFORMATION

All editorial submissions must be emailed to the editor by the first Friday of the month preceding the issue date. For example the deadline date for the October issue is the 7th October.

Digital Media

Hydraulics & Pneumatics website:
www.hpmag.co.uk
 incorporating turnpage digital issue.

The H&P website will feature: –

- Breaking news stories on business, legislation and relevant products unique to this website.
- New rich media content – relevant moving media for fluid power industry
- News on up and coming events
- Buyers Guide on line – the digital replication of H&P’s printed version – the most comprehensive and easy to use guide for the fluid power industry.
- The best features and application stories from recent issues of H&P
